### BISD Recognizes Board of Trustees

“School board members serve countless hours working to make public education the best it can be for every child,” said Dr. Darrell G. Brown. In a climate of change and challenge, they develop policies and make tough decisions on complex educational and social issues that affect the entire community and the lives of individual students. They bear responsibility and oversight in Birdville for an annual budget of \$240 million; more than 23,600 students, in grades pre-K to 12; more than 3,000 employees; and 33 campuses.

“Ensuring today’s students position themselves to excel with integrity in an ever-changing global society through innovation and responsive learning environments is a tremendous task. As elected officials, school board members are the voice of their communities, serving first and foremost in the best interests of our children,” said Brown.

“We proudly salute these education advocates as they provide vision and leadership for student achievement, academic programs, district funding, and school facilities. Their service ensures that decisions about local public schools are made by those most familiar with the needs of our community’s children and families,” said Brown. “These dedicated individuals deserve recognition and thanks for their unflinching commitment to the continuing success of our students now and in the future.”
